Our management, under the supervision of and with the participation of our principal executive officer and principal financial officer, has carried out an evaluation of the design and effectiveness of our disclosure controls and procedures as defined in Rule 13a-15(e) and Rule 15d-15(e) of the Securities Exchange Act of 1934 as of December 31, 2007. Based upon that evaluation, the principal executive officer and principal financial officer have concluded that, as of December 31, 2007, due to the material weakness in our internal control over financial reporting described below, our disclosure controls and procedures were not effective to ensure that all material information required to be disclosed in reports we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms.

Management's Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f). Our internal control over financial reporting is a process designed under the supervision of our principal executive officer and principal financial officer to provide reasonable assurance regarding the reliability of financial reporting and preparation of our financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America.

As of December 31, 2007, our management conducted an assessment of the effectiveness of our internal control over financial reporting based on criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in "Internal Control-Integrated Framework".

Based on the assessment, management has concluded that our internal control over financial reporting was not effective as of December 31, 2007. Management has identified the following material weakness of internal control over financial reporting as of December 31, 2007:

Accounting Resources — In our 2006 Report, we identified as a material weakness at December 31, 2006 insufficient accounting resources to support our financial reporting requirements. We have taken steps to address this material weakness, which included expanding our financial reporting staff by adding two new positions, including one responsible for complex accounting and financial reporting requirements. However, the integration and effective deployment of these resources was not fully achieved as of December 31, 2007. This integration and our evaluation of the need for additional resources is ongoing. As a result, we could not conclude that this material weakness had been remediated as of December 31, 2007.

The effectiveness of our internal control over financial reporting has been audited by our independent registered public accounting firm, Grant Thornton LLP, as stated in their report included herein.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting during the most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
